Professional Summary

Software Engineer with hands-on experience in full-stack development, API integration, and database design. Skilled in building scalable high performance applications with clean, maintainable code. Passionate about solving real-world challenges and delivering user-focused solutions using modern technologies.

Education

Lyallpur Khalsa College of Engineering

June. 2018 – June 2022

Bachelor of Technology (B.Tech) in Computer Science Engineering

Jalandhar, Punjab

Technical Skills

Languages: JavaScript, TypeScript, HTML/CSS

Frontend Technologies: React.js, Next.js, Redux, Tailwind CSS, Bootstrap

Backend Technologies: Node.js, Express.js, RESTful API

Databases: MongoDB, PostgreSQL, MySQL

Developer Tools: VS Code, Git, GitHub, Postman

Experience

Webtrixz Ventures LLP

Aug 2024 – Present

Full Stack Engineer

Mumbai, Maharashtra

- Led the development of a responsive e-commerce application, implementing features like dynamic product listings, cart, and payment gateways.
- Designed a custom e-commerce dashboard to help clients monitor B2B and B2C performance.
- Enhanced page load speed through code optimization, lazy loading, and API call improvements.
- Managed deployment and cloud infrastructure, ensuring smooth hosting and server operations on AWS, FileZilla, and Hostinger, with a focus on scalability and security.
- Currently learning core DevOps concepts and tools, including CI/CD, Docker, Kubernetes, and automation for improved deployment efficiency.

D2R Tech Private Limited

Sep 2022 – July 2024

Junior Software Engineer

Gurugram, Haryana

- Refactored and fine-tuned React.js and Next.js front-end architectures, boosting performance and user engagement.
- Architected and deployed scalable client-side and server-side solutions, enhancing application stability and responsiveness.
- Engineered and integrated RESTful APIs with Node.js and Express.js, streamlining data communication and system interactions.
- Partnered with cross-functional teams, leveraging problem-solving, adaptability, and strong communication to drive project success.

Solitaire Infosys

Jan 2022 – June 2022

Internship

Mohali, Punjab

- Completed a 6-month internship, gaining hands-on experience in MERN Stack development and enhancing technical skills.

Projects

EduSphereAI | React.js, Node.js, MongoDB

Jan 2025

- A next-gen school management system integrating AI for attendance, fees, mark sheets, timetable, and real-time chat.
- Project Link:** [EduSphereAI](#)

Yo Digitals Ecommerce | React.js, Node.js, Express.js, PostgreSQL

August 2024

- Developed a B2B and B2C e-commerce platform with bulk order support, custom pricing, and real-time inventory management for seamless business operations.
- Project Link:** [yodigitals.com](#)

Tapir Recharge Software | Next.js, Node.js, SQL

October 2023

- Created a scalable recharge platform with secure payments, instant verification, RBAC, ticket management, and PAN card KYC for enhanced security.
- Project Link:** [tapir.com](#)
